Accommodation

Accommodation shall be provided by the institute of your choosing; or you can opt for affordable living arrangements through brokers

Different universities will have either of the following facilities:

- **International Hostels**
- **Combined Hostels**
- **Option to live outside**

The International Student Cells of respective colleges will assist you in finding accommodation.

Recreation

From pastimes to festivals, India is always celebrating through the year! Stroll through a local market, attend a festival or visit monuments - all exciting and affordable activities that you can avail with suitable Travel Packages.

Other Expenses

A background image showing a hand holding a pen, poised to write on a stack of coins. The image is overlaid with a green gradient.

A student can experience a comfortable stay for a month within \$160 even in metropolitan cities.

So annually \$1850 would make the student's living comfortable, happy, and safe.

An average of other Living Expenses:

- Eating out - \$24 to \$70 per week
- Utility bills – \$4 to \$10 per week
- Public transport – \$4 to \$10 per week
- Sports and leisure – \$7 to \$15 per week

The cost of studying in India is affordable when compared to developed nations.

FAQs

Q. What will be the medium of instruction?

A. The medium of instruction across all courses and institutions would be English.

Q. How economic is it to Study In India?

A. Among the top 30 countries for internationally inbound students according to a UNESCO report, India is one of the most economical country for foreign students.

Q. Are the degrees awarded in the name of the university or the college?

A. Colleges may be Autonomous, i.e. empowered to examine their own degrees, up to the PhD level in some cases, or non-autonomous, in which case their examinations are under the supervision of the university to which they are affiliated; in either case, however, degrees are awarded in the name of the university rather than the college.

Q. What is the travel ecosystem like in India?

A. India's rail network is the 3rd longest and the most heavily used system in the world, additionally there is a well developed air and road network.
